If yes, please ensure you have notified the Office of the Information and Privacy Commissioner at an early stage of development of the initiative pursuant to section 69 (5.5) of the FOIPP Act.

4. Purpose/Objectives of the initiative (if statutory, provide citation).

To enable our offering of proposed Blockchain offerings from BlocksEDU through CS, some courses will be delivered online using BlocksEDU's learning management system, Thinkific. To enable this, CS must send core student registration info (student name, email, and student number) to BlocksEDU so each student can be provided with access to the course in that LMS.

5. What are the potential impacts of this proposal? (Include privacy impacts in this description).

As select student data will necessarily be shared with BlocksEDU and, through them, with Thinkific, we must ensure that student data is protected, and that such protections are explicitly stated within the agreement between VCC and BlocksEDU.

Course registration: The relevant Program Assistant(s) in CS will send each registered student's name, email, and student number to BlocksEDU, who in turn will use this information to create a unique user ID in their LMS, Thinkific. This information will be emailed directly to the student so they can begin accessing the course and its materials through that LMS.

Grading: Once the course is complete, the BlocksEDU instructor is required to send all student grades (name, number, formative assessment marks, final grade for each student) to CS so the Program Assistant can enter this information into Destiny One.
